

MH3 Report - Joint Run Tue 15 Oct 2024

The annual joint run was held again at **Teflon's** factory in Hallam. I got there early to help **Steamshoes** sweep the floor and set up the seats and tables.

About 45 turned up and we were represented by a record breaking low crowd including **Quasi** (with book), **Wrongway**, **Kunza**, **Shiny Dick** and me (aka **P2**).

The RPH3 GM, **Doona**, welcomed us all then realized that no one had set a run so quickly nominated one of their fast runners, **FRC**, to go out and set one. It turned out to be a replica of the last joint run we had there a few years back. It was well set and measured about 5km and we all returned within the hour after a drink stop in the Hallam Rail Station carpark.

My old retired workmate, **Kim Jong Un** (Rocket Man), was Sgt and conducted a great circle. Visitors were welcomed and GM **Kermit** represented D&E. I was in the back stalls and couldn't see the whole incident but there appeared to be an argument between **Gibbo**, **Kunza** and **Quasi** as to whom should represent MH3. **Quasi** won and duly took the down down.

Also present were old MH3 runners, **Dags** and **Puck**.

The raffle prizes were great (see photo) and included a \$100 Bunnings voucher, meat trays, wine and beer. I won a meat tray which has been frozen and will be bought out for my run next week (if Joan doesn't get to it beforehand).

Food was pizza and garlic bread with stacks of leftovers.

ON ON

Phantom II (aka P2)
